MORE AMERICANS KILLED BY VERA CRUZ "SNIPERS"

O'Shaughnessy Ordered to Leave by Huerta

VERA CRUZ QUIETED BY SHARP SHELLING AND GALLANT WORK OF THE BLUEJACKETS

Six Americans Killed and About Thirty Wounded in Wednesday's Fighting. Mexicans Fought From Houses.

SHELLS FROM THE SHIPS DROPPED ON THE ROOFS TO STOP THE "SNIPERS"

Mexican Loss Reported as Very Heavy—Several of the Buildings From Which the Mexicans Fired Were Demolished by Shells From Ships.

Vera Cruz, April 22.—Six Americans killed and about thirty wounded marked the complete investment of Vera Cruz at noon today by the United States forces.

Rear Admiral Frank P. Fletcher has taken up headquarters at the Terminal hotel. The entire city is surrounded by the United States fleet. Rear Admiral Fletcher is in command of the land operations, while Rear Admiral Badger, commander-in-chief of the Atlantic fleet, has brought his flag into the harbor on the Minnesota.

After the general advance began this morning, Mexican sharpshooters on the roofs put up a stubborn resistance. There was one brisk action, guns of the Prairie and Chester assisting in silencing a heavy fire from the naval college. Shells from the Prairie finally shattered its walls.

MEXICAN LOSS VERY HEAVY.

The number of Mexicans killed yesterday is estimated at 150, with many wounded. The Mexican loss today is not known, but is thought to be heavy. The postmaster of the British cruiser Essex, Albert W. Kimber, was wounded on board his ship by a "sniper" sniper.

The British bluejackets crowded to the top and vociferously cheered the American marines as they proceeded to shore for the landing. The flags on the Essex and Fortness San Juan De Ulises were half-masted, and the dead were carried to the boats.

Rear Admiral Badger has not decided whether to proceed to Tampico, it is believed his departure will be delayed. An indication of this is found in the fact that his flagship has anchored the harbor.

Major Stanley D. Butler, with marines from the Prairie, made a sortie up the railway for a considerable distance late today.

Rear Admiral Fletcher's staff is composed as follows: Chief of staff, Captain Harry McHose; adjutant general, Commander John; quartermaster, Lieutenant Commander Edward C. Kallhaus; brigade engineer, Naval Constructor Richard D. Galloway; ordnance officer, Lieutenant Albert M. Cohen; aid and secretary, Lieutenant Mac McCourt; ensigns George and Henry; brigade messengers, William A. Elliott, brigade mess, Farmington, Christian J. Pomeroy.

HEAVY FIRE. Rear Admiral Fletcher at 8:30 o'clock began the shelling of the city. The movement for the occupation of all the town. A blackcock coffin advanced and passed the unoccupied market place and naval college. When they reached the walls of the college a terrific rifle fire was poured in from the blackcock, helpless to return the fire against the stone walls, scattered.

The Prairie, Chester and San Francisco opened with their five and six-inch guns and shattered the walls. The blackcock formed again and advanced against the fire which had diminished by 10 o'clock. The United States sent a heavy mortar shell into the city. The most serious counter-attack was made on the outskirts of the city.

General Leonard Wood will head the army of operations in event of the necessity of ordering United States forces across the border. Secretary of War Garrison has made this official announcement on account of the army's limit. The sailing of the United States steamer North Dakota for Mexico leaves for Vera Cruz at 10 o'clock. Rear Admiral Badger. She will be followed shortly by the New York. The North Dakota will have machine guns up on her forward deck, is shown in the accompanying illustration as she left the Brooklyn yesterday.

Carranza Promises to Punish Huerta

And Urges Wilson to Order Cessation Of the Fighting at Port of Vera Cruz

Chihuahua, Mexico, April 22.—Replying to a telegram from Secretary Bryan, at Washington, General Carranza today telegraphed that the United States is not justified in occupying Mexican territory.

"The invasion," says the letter, "will drag us (Mexico) into an unequal war with dignity, but which, until today, we desired to avoid."

The unofficial translation of the text of the letter follows:

"United States Consul J. C. Carothers: In answer to the message of Mr. Secretary of State Bryan, which was communicated to me through you, please transmit to the said Mr. Bryan the following note addressed to Mr. President Wilson:

"Awaiting the action of the American senate on your excellency's message, directed to said body, caused by the lamentable incident which occurred between a crew in a whale boat of the cruiser Dolphin and the soldiers of the usurper, Huerta, certain acts of hostility have been executed by the naval forces under command of Admiral Fletcher at the port of Vera Cruz, and in the face of this violation of national sovereignty, which the constitutionalist government did not expect from a government that had reiterated its desire to maintain peace with the Mexican people, I comply with the duty of elevated patriotism in directing this note to you, with a view to exhausting all honorable means, before two friendly nations sever the pacific relations that still unite them.

O'Shaughnessy Told to Leave

Washington, April 22.—Nelson O'Shaughnessy, the American chargé at Mexico City, has been handed his passports by General Huerta and is preparing to leave Mexico City.

Chargé O'Shaughnessy telegraphed the state department under date of Wednesday night as follows:

"Having been given my passports, I am leaving tomorrow night or Friday morning."

The message was given out at 3:20 a. m.

Mexic Situation Stirred To New and Acute Crisis By Demand of Carranza

Washington, April 22.—General Carranza's note to President Wilson declaring the seizure of Vera Cruz by American forces a violation of the national sovereignty of Mexico, inviting the United States to suspend hostile operations and withdraw its forces, and suggesting that the constitutionalist government should receive demands for reparations of offenses committed by Huerta, stirred the Mexican situation to a new and acute crisis tonight.

Opposition to the American government's action coming from an unexpected quarter after the Washington administration had hoped for an attitude of neutrality from constitutionalists, brought the government face to face with possible hostility from the great body of Mexican forces lying in proximity to the southern border of the United States.

800 COFFINS PLACED ON ARMY TRANSPORTS

Galveston, Texas, April 22.—Eight hundred coffins today were taken aboard the army transports here, which are stocked and ready to carry the Fifth brigade of the United States army to Mexico if the war department so orders. It was learned tonight that the transports carry two months' subsistence for the 4,000 men of the Fifth brigade, the stores of provisions having been included at the last moment.

All first plans were made to get aboard only about thirty days' provisions. It was stated tonight that from eighteen to twenty-four hours would be required to make the transports ready to take the army and camp equipment could be taken aboard in a few hours.

The three torpedo boat destroyers, Flusser, Preston and Held, which arrived here yesterday, took on coal today. The destroyers are to convey the transports in case of sailing.

Evidence of the readiness of army headquarters here for emergency was seen during the day in orders to assemble here or inquire about their availability for war service.

Lieutenant Commander Denney, one of the Japanese navy, who arrived here today from Tampico, said he found the treatment of the Japanese navy very satisfactory. He made a trip of inspection in port of Mexico.

BRANDS HUERTA AS USURPER

"And the Mexican nation, the real people of Mexico, have not recognized as its executive a man who had sworn to protect it without in any way touching its integrity, drawing in blood its free institutions, consequently the acts of the usurper Huerta and his accomplices do not signify legitimate acts of sovereignty, they do not constitute real public functions of interior and exterior relations, and much less do they represent the sentiments of the Mexican nation, which are of co-fraternity towards the American people.

"The lack of representative character of General Victoriano Huerta, as concerning the relations of Mexico with the United States, as well as with Argentine republic, Chile, Brazil and Cuba, had been clearly established with the justifiable attitude of these nations, who have refused to recognize the usurper, in this way lending a valuable moral support to the noble cause I represent.

"The usurped title of the president of the republic cannot be denied to Huerta with the right to receive a demand for reparation on the part of the United States, nor the right to grant a satisfaction as due.

"Victoriano Huerta is a culprit who is responsible, in the constitutional government today the only one under the abnormal circumstances of our nation.

PENROSE ATTACKS HIS OWN COUNTRY

And Expresses Sympathy for Huerta—He Calls the Mexicans a Naked and Helpless People.

Washington, April 22.—The action of the American government in the Mexican situation has been such as to invite the contempt of the civilized world for the state department and the executive office, according to a statement of Senator Penrose on the floor of the senate, when that body convened today.

Democratic senators clamored to defend the president and the administration's course, Senator Reed characterizing Senator Penrose's statement as cheap demagoguery, and Senator McPherson as something of a hypocrite who should be ashamed.

Senator Penrose's statement arose out of Senator Reed's criticism of his "movements" at the offer of dispatches from Mexico. "I expected cheap political capital to be made out of this wicked and unnecessary warfare on a defenseless people," said Senator Penrose. "For months American citizens were murdered in Mexico and their property despoiled without the least attention being paid to it by this government. I doubt whether there has been such a contemptuous indifference manifested toward the interests of its own citizens as the history of the world can furnish. And now with the guns of this battle ship trained on a naked and helpless people, we have the spectacle of a senator appearing before the senate with this show of mock heroism."

The patriotism of the volunteers from Colorado would stand a better test than that of the senator from Pennsylvania," retorted Senator Reed. Senator McPherson declared, "Senator Penrose should be ashamed of the inconsistency of voting for the resolution justifying the president's course and then within ten hours criticizing the president's action."

The senate adjourned at 1:55 until noon tomorrow.

BLOODY WORK BEING DONE IN COLORADO LABOR WAR

TERRIBLY SORRY, DECLARES WILSON

Many Men and Women Killed Wednesday in the Battles Between Troops and the Strikers.

ALL COLORADO TROOPS ORDERED TO THE SCENE

Reported that the Strikers Sealed Up Mine in Which Several Persons Had Taken Refuge and Then Applied the Torch.

Denver, Colo., April 22.—Every branch of services in the Colorado national guard tonight at 10:40 o'clock was ordered to strain for Trinidad at once. Lieutenant Governor Stephen R. Pitaguard issued a call for the militia to the effect that the state legislature had passed a resolution to maintain the maintenance of the militia in the strike zone, to meet in Denver on or before May 4.

Trinidad, Colo., April 22.—Six mine employees dead, and two missing; three men, two women and a baby reported to be entombed in a burning mine; several mining camps destroyed and others riddled with bullets; less than two hundred militiamen and company guards confronting an army of striking coal miners estimated by strike leaders at more than four hundred—this was the situation when the national guard was ordered to the scene on the third day of the southern Colorado labor war.

The list of dead on this side of the coal operators as the result of the strike fighting, as near as could be estimated, was:

William Waddell, superintendent of the Empire mine of the Southwestern Fuel company.

John Church, engineer of the Empire mine.

Unidentified miner killed at Empire.

David Dugan, carpenter at the Delagua mine of the Victor-American company.

Found Dugan, guard at Delagua, found dead in the hills late today.

Carl Johnson, employed at Delagua.

Felix Gonzales and Joe Chavez, guards at Delagua, still are missing, and were supposed to be dead somewhere in the hills above Hastings canon.

A persistent but unconfirmed report had it that J. W. Siple, manager of the Empire and Southwestern mines of the Southwestern Fuel company, with two women, a baby and two men, had been sealed in the Empire mine, which had been set on fire by strikers.

Strike leaders tonight asserted that only one of their fighting men had been killed during the day's battle and that two had been reported wounded.

According to reports received by the military authorities at Delagua, the fighting followed that at Delagua, was participated in by the same body of strikers.

The firing at Delagua began soon after darkness with a clash between fifteen guards and a large body of miners. This fight occurred in the hills a mile or two from camp, where the guards are declared to have gone to meet the strikers.

There was hot fighting at close range for a few minutes and the guards retreated toward the camp, the pursuing strikers at their heels.

The strikers reached the heart of the camp directly above the camp, then rushed for the mine buildings.

Dynamite Was Used.

Mine company reports declared that this rush dynamite was exploded by the attacking party.

A party of militiamen, hastily sent from Ludlow in steel cars, reinforced the guards and after heavy fighting the strikers were driven back.

Shortly afterward a party of strikers appeared in the Aguilar district, separated from the Hastings-Delagua canon by a high range of hills. The assailants of Delagua in the meantime had vanished in the direction of Aguilar.

The attacks on the Aguilar mines followed.

Trinidad was a scene of tense excitement tonight. The miners about Trinidad closed by order of the city council, but throngs of men still congregated on the streets. Labor headquarters were jammed with strikers, mostly aliens, and the crowd overflowed the sidewalks.

Many women and children from the Ludlow tent colony were in Trinidad cared for by union sympathizers.

Throughout the day steady streams of strikers passed in and out of the morgue where lay the bodies of several victims of the Ludlow battle.

The bodies of eleven children, two women and one man were found today in and about the ruins of the Ludlow tent colony by a searching party sent out from here by the American Red Cross society. The bodies are being brought to Trinidad.

Hint of Civil War.

Washington, April 22.—"I'm sorry, terribly sorry," declared President Wilson today when news of the fighting at Vera Cruz reached him. He had hoped that the city might be occupied by American marines without loss of life.

His Head Hoveled.

As the president came to his office his head was bowed and his face was in a study in deep feeling. He has determined, however, there shall be no backward step. He is trying to avert war and prevent further bloodshed, but he realizes that the American people want to see the dignity of their flag upheld.

Passage of the resolution in congress has given the president the feeling that he is justified in proceeding with aggressive steps, but he wants to have the full effect of the seizure of Vera Cruz impressed upon Huerta in the hope that this may be brought to terms without plunging further into armed conflict.

To Parents of the Killed.

Letters expressing the profound sorrow of President Wilson and Secretary Daniels at the death of the four sailors and marines at Vera Cruz yesterday were dispatched today by the secretary of the navy to the parents of the men.

Mr. Daniels wrote to each: "The men, Mr. Daniels, were killed in the line of duty. They were fighting for the United States and for the American flag."

Feel how weak and feeble must be any words of mine which should attempt to beguile you from a loss so overwhelming. But I cannot refrain from tendering to you the consolation that may be found in the thanks of the Republic and the prayers of the people for the souls of the fallen.

I pray that our Heavenly Father will grant you peace and comfort and that the solemn prayer that only the cherished memory of the loved and lost and the solemn prayer that only the sacrifice upon the altar of freedom.

STOP SWEETS IF KIDNEYS WORRY YOU

Take Buchu Mixed With Juniper If Your Back Hurts or Bladder Troubles You.

No man or woman who eats sweets or sugar or candy regularly can make a mistake by thinking the kidneys with Buchu mixed with Juniper, says a well-known authority.

When the urine becomes cloudy, the bladder irritated; when you have an unusual flow of urine, scalding, dribbling, straining or too frequent passages from the bladder—your ankles or eyelids are swollen, nose before the eyes, leg if it is bad you have rheumatism, try the following: Get from any reliable druggist a 14-oz. bottle of Stewart's Buchu and Juniper Compound. Take a spoonful after meals. Drink plenty of water. Better drop the use of sugar and sweets. In a day or so your kidneys will act like a new machine.

Stewart's Buchu mixed with Juniper has been used for years to clean out impurities from the kidneys and bladder, also to neutralize the uric acids in the blood and urine so it no longer irritates. It builds the kidney and bladder weakness and curing Diabetes. Stewart's Buchu and Juniper is a fine kidney and bladder regulator and has helped thousands of sufferers when most other medicine failed to help or cure.—(Ad.)

Hint of Civil War.

Washington, April 22.—Labor troubles in the coal fields of southern Colorado and the clash between strikers and militia at Ludlow, Colo., today, called forth comment in both east and west.

THE SCHEDULE FOR THE INTERVENTION

Washington, April 22.—That General Huerta deliberately planned the arrest of American bluecoats at Tampico and other officers against the United States with a view to bringing on armed intervention and untangling all the Mexican factions behind him was the substance of a letter received by a high government official today from an authoritative source in Mexico City.

Shot at American Embassy.

Galveston, Texas, April 22.—American sailors were fired upon by a Mexican gunboat at Tampico on two or three different occasions and once German and English sailors were injured, according to Chief Engineer Murray, the steamer "Herbert C. Wylie," which arrived here today from Tampico.

Murray said he had seen the Mexican gunboat Vera Cruz take "pot shots" at cutters flying the United States flag. He said on one occasion cutters from an American man-of-war and from German and English boats went ashore without their flags flying, their occupants landing and starting about to ward the village of Donna Cecilia. The Vera Cruz dropped a shell near them.

Occupants of all three boats then hurried back to the water front, where they hoisted their flags in their respective boats and there was no more firing.

When the revolutionists attacked Tampico a few days ago the Wylie was lying in the river in the firing line between rebel and federal gun, with men ashore. She cut loose, drifting out of danger. One of her lifeboats showed the marks of bullets. Drifting downstream, the Wylie picked up barges upon which women and children had taken refuge. The Wylie's crew took the refugees ashore.

MARSHALL DEFENDS COURSE OF WILSON

Jacksonville, Fla., April 22.—Outlining and approving the course of President Wilson in the present crisis at Mexico, Vice President Marshall tonight addressed the Jacksonville Board of Trade.

The attitude of the United States, said he, was one of reprisal, not of war. "The president likened it to the action of a big man taking the hat of a much smaller individual as a penalty for some offense of the latter."

"When any foreign power, real or de facto, interferes in the affairs of this country," said he, "the flag there should loudly applauded."

"I would spend, if necessary, every American dollar to save a human life. It was necessary, he said, to spend a single American life for all the American dollars that are invested in Mexico."

Vice President Marshall stopped here on his way to Fort Pierce, where he will attend the meeting of the Florida State Press association. He is accompanied by Mrs. Marshall.

"DEATH TO GRINGOS" SHOUT THE MEXICANS

Bigas Pass, Texas, April 22.—Piedras Negras, opposite Bigas Pass, was early today after a night of wild excitement. The morning news of two thousand refugees came to the American side of the Rio Grande for protection.

General Guadalupe's forces are now camped at Puentes, three miles south of Piedras Negras, waiting for trains to transport them to Saltillo. All federal forces have been ordered by General Maas to concentrate at Saltillo to "repel the American invasion."

Last night when the people of Piedras Negras learned that American marines had occupied Vera Cruz, a demon recruiting office was opened and arms issued to volunteer companies as fast as organized. More than 1,100 volunteers it was said, enlisted during the evening.

Thousands formed and marched through the streets, shouting "Death to the gringos" until the cry became a shout in every street.

Knowledge and Integrity

are two things that must enter into the optical business. Combining these two with high-grade workmanship, careful attention, honest dealings, and the grinding of the greater portion of prescriptions written for glasses by our better oculists, has fully demonstrated the fact that there is something indescribable about the way in which we conduct our business that few opticians have been able to understand. We know when glasses are suited to your eyes, and if you need the service of an oculist we will so advise, but positively will not accept your money without satisfaction from us. Just ask anybody if this is true.

inch shells, firing over the heads of the men ashore and showing almost perfect marksmanship.

The general movement from all the positions taken yesterday began in the direction of the main plaza, the southward along parallel streets toward the center, while marines commanded by Lieutenant Colonel Wendell C. Neville, moved to the southward along parallel streets toward the center, while marines commanded by Lieutenant Colonel Buchanan, of the Florida and Lieutenant Commander Arthur B. Keating, of the Arkansas, were ordered from their positions east of the center toward the plaza.

The two forces swung forward with a rush for a distance of three blocks.

**SHELLS FROM SHIPS
CLEARED THE ROOFS.**

The machine gun and rifle fire was supplemented by shell fire from the smaller guns of the Florida and Chester. The ships' guns supported the movement of clearing the roofs to the south and east, occasionally dropping a shell a few hundred yards in advance.

Buchanan's men, under direct command of Lieutenant Guy W. O. Castle, moved forward to a position one block directly east of the plaza. Other detachments occupied positions to the north and west. Both marines and blue-jackets dragged light field pieces, but there was little work for them. There was no organized resistance, but from the beginning of the advance a smart fire came from defenders on housetops which invariably drew a merciless fire from the advancing parties. The machine guns sounded their

"tap tap" in all quarters, and American sharpshooters, posted at street corners and other points of vantage, picked off at will any man who appeared to them acting suspiciously.

Urged by Rear Admiral Fletcher the city began returning to its normal civil government under its local officials.

The gradual cessation of hostilities was brought about through notes sent by Consul W. W. Canada to the mayor, the jefe politico or chief federal civilian, the chief of police and other officials, calling upon them for their co-operation.

The chief point from which the Mexicans fired was in the central part of the city. From the Dilligence hotel the sharpshooters directed a most troublesome fire.

Captain William Rush, commander of the battleship Florida, had received orders not to effect any advance but to hold the positions he had taken yesterday.

**3,000 MARINES
IN VERA CRUZ.**

Captain Rush had under his orders ashore nearly 3,000 men, while off shore there was awaiting his call as many more as he needed up to 5,000 men.

Rear Admiral Fletcher was determined not to lose more men than absolutely was necessary, and for this reason, in all probability, did not utilize the forces under his command ashore in charges or to advance on the positions held by the enemy.

Sixty Thousand Intelligent Men and Women have Paid \$10,800,000 for this Wonderful Book of Facts WHY?

SIXTY thousand men and women representing all intelligent classes among the rich, well-to-do and people of moderate means have testified to the rare value of the new 11th edition of the Encyclopaedia Britannica by buying and paying more than Ten Millions of Dollars for this library.

On one hand you find the leading educator of this half of the world, Dr. Charles W. Eliot, President emeritus of Harvard University, a man who knows the value of books, a man who can appraise the value of a book with the same nicety as your expert financier can appraise the value of a bond. The venerable educator recognized the new Britannica as a book which satisfied him, but also as a book which would be useful to young people. He therefore purchased two sets for his two sets of grandchildren. "I find them altogether admirable," he says, "and my grandchildren, who are at the most inquisitive ages, are of the same opinion." If there had been a more valuable book to give to these young people, Dr. Eliot would certainly have given it preference.

On the other hand, we find a farmer who prizes the Encyclopaedia Britannica as a valuable investment to inform him about the vital facts of scientific farming, and the advance of political thought. Here is a young lawyer to whom the Encyclopaedia Britannica is a necessity in his calling. Here is a newspaper writer to whom the Encyclopaedia Britannica is so important he consciously makes sacrifices in order to own it.

Read What These People Say

If you give a man a set of books like the Encyclopaedia Britannica, he will tactfully say something nice about them. His testimony is tinged with the sense of obligation you have thrust upon him. But if he has put his hand in his pocket and paid for his books with money that he has earned and saved, anything he says may be taken as an honest, unbiased opinion.

The letters printed below are the unsolicited words of men and women who have paid for the privilege of owning the greatest set of books of all the centuries, the collected, proven knowledge of the whole life and achievement of mankind as recorded by recognized authorities.

A Priceless Library

"I am much pleased with this wonderful work, so 'unique in mechanical construction and perfection of printing. It is also so satisfactory in the style, 'freshness and completeness of the articles written, 'that I can say you have not overstated a single 'feature in your advertisements of it in the magazines. To me it is a priceless library."—O. J. King, Grocer, Lincoln, Neb.

Bought for the Children.

"My object in buying the Encyclopaedia was to furnish my children who attend public school with 'the best books of reference obtainable and it has 'been a great help as well as a pleasure to them to 'use it, and with the help they get from it I am 'proud to say they are enabled to do good work in 'all their studies.'—H. P. Tobias, Farmer, Brownsville, Texas.

Quoted by a Chief Justice

"Possibly it may interest you to know that in an 'opinion of this court which I wrote and filed last 'week in S. v. Nipper on the question of the right to 'bring convicts as a part of the prison discipline, I 'made a long quotation from your excellent article 'on "Prisons" giving due credit for the same, to the 'Britannica.

"We make constant use of your Encyclopaedia and 'find it very helpful."—Walter Clarke, Chief Justice State of North Carolina, Supreme Court, Raleigh.

The Most Monumental Work

"Your edition of the Encyclopaedia Britannica '(11th edition) I think the most monumental work 'I have ever known. The best evidence of my 'enthusiasm is that I have already distributed a dozen 'sets in America as presents among editors and 'writers, not counting my own sets. I can hardly 'conceive a more suitable present to both young 'and old. The work is a liberal education. I want 'to thank you for the intellectual pleasure I enjoyed 'this winter in examining this extraordinary 'production.'—Joseph Pulitzer, New York "World."

You Can Afford It

No man or woman of even moderate income need say, "I can't afford it." The publishers of the Encyclopaedia Britannica from the very start have considered this book to be for all the people, not for the intellectuals only. And for that reason they have arranged a system of payment that will meet the purses of all people.

You can pay cash and get the new Britannica at the lowest price or you can pay for it in 4, 8 or 12 installments, or

Commended to Newspaper Men

"The last edition of the Britannica, in its flexible 'covers and annotated index, is the accomplishment 'of a long cherished desire on my part and its use 'will not only lighten my labors, but add to the 'dispatch of them and increase their value to my 'readers. I commend the book to all newspaper 'writers.'—Editor, The Evening Times and Cumberland Alleganlian, Cumberland, Md.

A Factor in Children's Lives

"The new edition of the Encyclopaedia Britannica 'is not only more comprehensive and equally au-'thoritative, but more readable. My own children 'have begun to use it in connection with their 'studies and it promises to become a factor in their 'educational life. I regard it as one of the treasures 'of my library.'—J. W. Magruder, Gen. Sec., Federated Charities, Baltimore, Md.

Better on American Subjects

"It is the best Encyclopaedia, so far as my knowl-'edge goes. I have compared a number of articles 'on American subjects with similar articles in (a 'well-known American encyclopaedia) and found 'the Britannica more satisfactory.'—Walter E. Coffin, President, Iowa Loan & Trust Co., Des Moines, Iowa.

Very Good Articles on Textiles

"The books of the old edition were so heavy and 'bulky that I found it was really no pleasure in read-'ing them at length, whereas the new ones are given 'preference to even current magazines. I subscribe 'for all the leading ones and now read only the most 'noteworthy articles in them, then again revert to 'the new Encyclopaedia.

"I find that the articles on Electricity and Aeronau-'tics and Flax, Linen, Jute and Cotton manufac-'ture, in which latter commodities I am particularly 'interested because of my business, are exceptional-'ly good."—W. C. Bowman, Mgr., Linen Thread Co., Chicago, Ill.

Valuable to Banker and Farmer

"I have had occasion to become thoroughly in-'formed of the value of the book. I do not believe 'that there is any subject of interest or that affects 'human affairs, but what is intelligently treated. 'For the information of the farmer, I desire to say 'that to my great surprise I found that the theory 'of the modern Silo was set forth in this work with 'the same completeness that is set forth in govern-'ment publications upon the subject.'—James E. Ferguson, Temple State Bank, Temple, Texas.

Valuable Summary of Knowledge of Electricity

"I have made useful reference to the Encyclo-'paedia Britannica in a few instances and have 'found the information I was looking for in very 'full and satisfactory form. I have taken occasion 'to read with some care the article on electricity— 'a subject in which I have special interest, and I 'was surprised to find the fullness and completeness 'of the information contained in it. It is in truth 'a resume of all that has been and is known on the 'subject of electricity from the coining of the name 'electron to the latest and innumerable applications 'of that force.'—R. S. Taylor, Fort Wayne, Ind.

The Article on Japan

"It gives me genuine pleasure to indorse with un-'reserved praise the 11th edition of the Encyclo-'paedia Britannica. The comprehensive and satis-'fying articles on Japan and Mexico have been 'especially gratifying to my family.'—Mrs. Scott Hopkins, 1177 Filmore St., Topeka, Kansas.

Excellent Maps

"I find the maps the best I have ever encountered 'in English, quite as reliable and much more con-'venient to use than a German atlas.'—W. W. Cockins, Jr., Ranchman, Meade, Kansas.

WE GO INTO MEXICO.

Assuming an unavoidable and distasteful
task, the armed forces of the United States
have invaded Mexico.That naked fact stands out above the
diplomatic verbiage imposed on us by
exigency.The president had no alternative other
than to order that the ports of Vera Cruz
and Tampico be seized.Congress had no alternative other than
to support the president. The one belittling
feature of the situation is the eleventh hour
quibble raised by partisanship in house and
senate.It is not as though the Tampico incident,
with its insult to the "rights and dignity"
of this country stood solitarily as provoca-
tion.Since Madero was done to death more
than a year ago the de facto government in
the Mexican capital has lost no opportunity
to single out the United States for humili-
ation.From the outset, Huerta has challenged
President Wilson's steady affirmation of our
duty to safeguard liberty in this continent.His negotiations have been an unrelent-
ing stream of affronts, a succession of des-
perate and unconscionable plots to involve
America with foreign powers that he might
hold his own shaking dominion.At no stage has he given evidence of a
sincere desire or ability to co-operate with
this country or genuinely to pacify Mexico.Self-preservation was the motive power
back of the closing of the Mexican ports.Had the Tampico affair been ignored, it
is impossible to predict to what lengths the
insolence of Huerta would have gone.We would have lost the respect of the
great nations of the world.We would have lost the respect of the
Mexican constitutionalists, even now none
too strong or obvious.We would, in effect, have weakened be-
hind our civilization our historic affirmation
of the Monroe doctrine, by which we recog-
nize and enforce the stern obduracy of
freedom in this continent.The Mexicans are themselves to be the
arbiters of how far the invasion shall go.The United States in absolute good
faith when it disavows any designs on the
territorial integrity of Mexico. Our costly
adventures in imperialism with the Philip-
pines and Cuba still stand as warning re-
miners.If the constitutionalists on the north
shall accept this implied pledge and permit
the United States to restrict its operations
to the field dominated by Huerta, all will
be well.Huerta will not, then, lose complicate
the situation. The constitutionalists will
be given the opportunity to prove their ca-
pacity for self-government and the sincerity
of their protestations of patriotism.Every peace-loving American will hope
the constitutionalists guide their course by
this reasoning. If they do there is no rea-
son why within a few months our flag
should be withdrawn and Mexico left to
set her own house in order.If the reiterated threat of a Mexican
coalition against an alien invader material-
izes, there will be a sad and tedious work
below the Rio Grande. The United States
will be coerced into a course for which it
is certain no Americans save a few capitalist-
adventurers have any relish.There is no reason for exultation in the
premises. The forces of a perverted, a mod-
ern and a cohesive nation are opposing theforces of a disjoined, anarchical and me-
dieval people. The contest is too unequal
to be otherwise than pitiful, however much
our policy is one from which we cannot
fitch.Let us all hope that the business of
wholesale slaughter is not to be re-nacted
on this continent. Let us hope that, having
nothing tangible to gain in Mexico, the Mex-
icans will so deport themselves as to permit
us speedily to depart.And let us congratulate ourselves upon
an administration strong enough and brave
enough to recognize the underlying facts,
and to exercise the highest type of con-
structive restraint.Self-respect, the "noblest oblige" of in-

Just from Georgia

The Veteran.

I.

He sees the boys a-march-
ing in the days of oldWhen war-fires reddened
all the sky and battle-
thunder rolled.And he half-forgets Time's
half-hold forever on
the dead.He waxes his crutch and calls to them: "I
want a gun myself!"

II.

For the band is playing "Dixie," and he feels
the old war-drill;The battle-fere gets him and he's marchin'
'em on;He thinks of the fighting; he cheers 'em on
and on;Cries: "Oh, for one more Jackson—a Lee to
lead the march!"

III.

But he sits there in the sunlight; his fighting
days are done;His life is in the past time—his victories
are won;But he waves his crutch in greeting and as
the band plays "Dixie," and
the boys are marching by.

A bank account is as good as two doctors
in time of sickness. Many a doctor has
been called in to attend to a patient who
was ailing, but who was not really sick. The
man had no bank account and the grocer
was beginning to get impatient. When the
doctor had emptied his pocket of his money
back in three days. Still we cannot expect
doctors to do this when their rate per visit
is \$5 and so on.

A bank account is a building on the front
porch of old time in our age. It is a
ruin. Still a good many men do
not see it. They put money in the bank
and they get it out. They get it out and

ROYER NOW MANAGER OF PIEDMONT HOTEL

Atlanta Needs Street Signs and Revision of House Numbering System, He Says.

H. W. Dutton, who recently resigned the management of the Piedmont hotel to take the management of the Hotel Stratler, in Buffalo, N. Y., where, incidentally, his friends will be glad to know he is meeting with marked success, has been succeeded by William C. Royer, as manager of the Piedmont.

Mr. Royer has taken up the active duties of his office within the last week. He is a popular and experienced hotel man, and, withal, no stranger in Atlanta. For four years he was in charge of the winter months with the management of the New Kimball hotel.

That, however, was fourteen years ago. Since that time Mr. Royer has been connected with leading hotels in Charleston, Washington and Montgomery.

"I find many changes for the better in Atlanta since my last residence here," said Mr. Royer to some of his old friends Wednesday afternoon, "and I am more than delighted with the progress the city has made."

The city has grown so that I can hardly find my way about town. And that, by the way, brings me to a point of criticism. If there any one thing that Atlanta needs, according to my observation, it is street signs and a revision of the house numbering system, so that a stranger within our gates may be able to know where he is going and when he gets there. It seems to me that this improvement would be a fine achievement and a great help for the city before the Shriners arrive. With the street signs and house numbering systems in their present dilapidated condition, those who are going to have a very hard time finding their way about town, and, perhaps, may leave with somewhat of a bad taste in their mouths at that score."

Society Women Asked To Help Tutor Children Behind in Their Studies

The Associated Charities has sent a call to society for charity inclined women who wish to assist in tutoring young children who are falling short in their studies.

Volunteer workers are wanted to devote an hour or so two or three days each week instructing the children of the various public schools who need additional tutorage in order to make required examinations at the close of the season.

Last year numbers of young women responded to the call, and this year the number is expected to be greater. The Associated Charities will be pleased to receive applications, in person, over the telephone or through the mail.

FAMOUS "BELL HOUSE" NOW A CORPORATION

The Bell house, the boarding house of some of Atlanta's best known men, which was operated for years by Mrs. Lulu Bell, who died recently, was incorporated yesterday by Judge George L. Bell. The object of the corporation, as stated in its charter, will be to provide a private boarding place for the members of the Bell house.

THURSDAY WILL BE MODEL SPRING DAY, SAYS FORECASTER

A fine generally clear day is indicated for Atlanta on Thursday. The early morning temperature, says the forecaster, will be about 40 degrees and the midday temperature will run up nearly to 80 degrees. Light southerly winds will prevail. The general cloudiness west of the Mississippi and the widespread rain in Texas indicate a change in the weather near the end of the week.

AUTO OWNERS TO HOLD SMOKER FRIDAY NIGHT

The called meeting for Friday night of all the automobile owners in Atlanta, which was originally planned as a dinner, will be held as a smoker instead at 7:30 o'clock Friday evening at the M. & N. Club. The meeting has been called by the Automobile Club of Georgia. The principal speakers invited for the evening are W. T. Winn, of the Fulton county board of commissioners and president of the convention of county road commissioners, and Shelby Smith, of the county commissioners.

DR. MARX WILL PREACH AT UNITARIAN CHURCH

The Rev. J. Wade Conklin, minister of the Unitarian church of Atlanta, has just left for Daytona, Fla., for his wife, who has been with her parents for several weeks. During the absence of Dr. Conklin, the services of the church will continue as usual at the Woman's club, with Mr. David Marx occupying the pulpit next Sunday, April 25. Attendance of succeeding Sundays will follow.

The Mind Expands As Health Returns

Quick Improvement Is Noticeable When Proper Aid to Nutrition Is Given.

A low state of the general health is now the accepted cause of backwardness in children. So in the case of a backward child it is best to look towards building up his health. It will usually be found that the main trouble is in the food, in lack of assimilation and digestion. Hence care should be taken in the kind of food given to the child. This, with plenty of air and exercise, should bring about a change for the better.

Watch the condition of the bowels, to note whether the waste is being passed off or not, or whether it is being passed too freely. Either condition prevails give a small dose of that gentler of all laxative-tonics, Dr. Caldwell's Syrup Pepsin. Thousands of mothers all testify to the wonders it has wrought in the lives of their own children and for that reason legions of families like those of Mrs. Daisy McBroon, Hillsboro, Ind., are never without it in the house. She is the mother of Lucile, who has been using Dr. Caldwell's Syrup Pepsin for Broome since she was two. Mrs. McBroon says it saved Lucile's life. It is the standard family medicine in the McBroon home.

It is pleasant to the taste and so perfectly safe that it is given to infants, and yet is equally effective for grown people. All druggists sell it and the price is only fifty cents and one dollar a bottle, the latter for families who need it regularly.

MILITIA OF GEORGIA MAY MOBILIZE HERE

Adjutant General Nash receives Orders from the War Department.

Having already received orders from the headquarters of the first division of the United States army, at Governor's Island, N. Y., directing him to find a site for the mobilization of troops and make the necessary arrangements to have such a site prepared for the purpose of encampment, Adjutant General Nash is awaiting further orders, which may call for having the mobilization site prepared and the actual calling out of the national guard of Georgia.

While there has been no call for volunteers or call for the national guard, these preparatory orders are taken as significant, and the members of the national guard of Georgia are anxiously awaiting developments. It is understood that orders similar to those received by Adjutant General Nash have been received by the adjutant generals of other states. The orders were received by Adjutant General Nash on Wednesday, and read as follows:

"Governor's Island, N. Y.
"Adjutant General—You will immediately find and obtain a mobilization camp and find party able to furnish labor and material to pipe camp grounds for water. See about fuel, food, and other necessities until further orders. Wire results. (Signed) "SIMPSON."

Adjutant General Nash stated that there will be no trouble in finding available grounds for such an encampment. He mentioned the race track and the grounds of Fort McPherson as readily obtainable.

Spanish War Veterans May Form a Regiment For War With Mexico

W. S. Thompson, of Columbia, S. C., lieutenant colonel during the Spanish-American war, arrived in Atlanta last night on a tour of this section of the country for the purpose of recruiting veterans of that war to form a regiment to volunteer in the strife with Mexico.

Colonel Thompson declares that he is just from the senate chamber in Washington and that he has received much encouragement from that source.

Senator Tillman, especially, says he offers to back the proposition for appropriations. Colonel Thompson is at present field agent in South Carolina for the New York Life Insurance company.

Your Grandmother's Remedy for Purifying the Blood

And Renovating the System in the Springtime

Ask for Sulphur Tablets

What was grandmother's unobtainable remedy? Haven't you heard of it? Yes, you have! It was sulphur, cream of tartar and molasses. The main trouble with it was its nauseous taste.

A modern method puts the cream of tartar and sulphur into sugar-coated tablets and mixes them with herbs, roots, etc., making a wonderful tonic blood purifier and system cleanser.

Just try Sulphur Tablets (not sulphur tablets), but Sulphur—remember the name—and get the tablets in sugar tubes at 10-cent tube. Grown-up people and children who don't feel well, who are constipated or sluggish, or who have pimples, boils, carbuncles, ulcers and the like, can soon rid the system of these impurities by taking this good old-fashioned remedy in modern form. Their action satisfies or money is refunded by the Prescription Products Company, Dayton, Ohio. A free trial sent to any address. Buy of any well-stocked drugist.

GEORGIA SCRUBS FRIDAY

The two scrub-nines from Tech and Georgia will meet Friday afternoon in their annual baseball game at Grady field.

This is an annual affair between the two schools, and is always held prior to the season.

to the big game between the two varsity nines, and interest is always high between the two schools.

The game will start promptly at 7:30 and a small admission price will be charged.

Morris Brown 12, Clark 5

Yesterday afternoon in an exciting game the M. B. U. Giants defeated the Clark Tigers to the tune of 12 to 5. The boys went away with a two-ton load.

In the lucky seventh, with the score 5 to 4 in favor of Clark with two men on the bases and two down, big Cooper, the fast fielding shortstop of the Giants, drove one of Black's curbs to deep center for a home run. In the eighth Morris Brown had another hitting rally and before the cannons could be stopped they had added five more scores.

ATHENS MAN CHARGED WITH ATTACK ON WOMAN

Into House and Left Victim for Dead.

Athens, Ga., April 22.—(Special.)—Ellie Mathews, a young man barely 2 years of age, was transferred to the county prison today from the police

by C. M. Bell, charging a more serious policy. It is believed that the younger white men are doing the work of the home of a well-known white sailor. The white men are chosen for their inexperience and lack of knowledge of the sea. The white men may be harshly treated from killing the man on sight.
